

Nature Master Class at KU

2021년 12월 1일(수) ▶ 12월 3일(금)
오후 4시 ~ 6 시 30분 / On-line

Program

① Webinar 1

Focus on Scientific Writing

② Webinar 2

Focus on Scientific Publishing

③ Review

Abstract 1:1 Review

Editor

Benjamin Heinrich

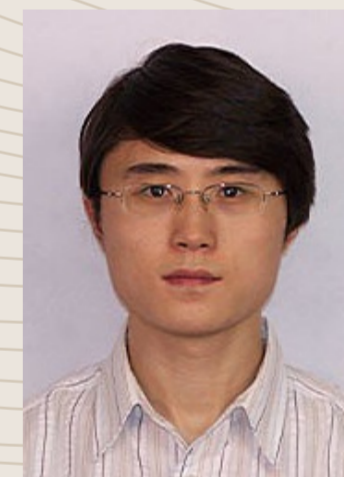

Senior Editor,
Nature Nanotechnology

Benjamin joined Nature Nanotechnology in February 2018. He obtained a first degree in chemistry from the University of Leipzig, Germany. After graduation, he joined the Institut de Physique et Chimie des Matériaux de Strasbourg, France, to study magnetic nano-objects on metallic surfaces with scanning probes. For this work, he received a PhD in condensed-matter physics in 2010. He then moved to Berlin for a PostDoc at the Freie Universität Berlin, where his research focused on many-body phenomena involving magnetic impurities and nanostructures on superconducting surfaces. He is based in Berlin.

Yaoqing Zhang

Senior Editor, Nature
Sustainability

Yaoqing joined Nature Sustainability in May 2020 as a Senior Editor. He handles manuscripts in the broad areas of engineering and technology tackling system-wide and technological solutions to sustainability issues. Yaoqing began his editorial career at Nature Communications in June 2016 where he covered a range of topics in energy chemistry, with a particular focus on electrochemical energy storage and solid state ionics. Prior to joining Nature Research, Yaoqing held an assistant professorship at the Tokyo Institute of Technology working on the synthesis, discovery and characterization of electride materials that have potential applications in catalysis or superconductivity. He obtained a PhD in chemistry from the University of St Andrews where he focused his studies at the interface of solid state chemistry, electrochemistry and ceramics, and then conducted postdoctoral research on condensed matter physics in Japan. Yaoqing is based in the Shanghai office.
