## The Evolution and Impact of Large Language Models : Applications and Opportunities

**Prof. Synho Do**

**Massachusetts General Hospital  
and Harvard Medical School**

**10:30 am, January 31 (Wed), 2024**

**#KU R&D Center seminar room 431 &**

**Webinar via Zoom (ID: 886 4120 9622, PASSWORD: P8HqJAzLV)**

### **Abstract:**

**: In this lecture, we will delve into the current landscape of artificial intelligence, with a particular focus on Large Language Models (LLMs). I will explore the evolution of these models, highlighting the key components and concepts that underpin the most popular approaches today. This discussion aims to provide a comprehensive understanding of LLMs, equipping you with the knowledge to effectively integrate them into your projects. Following the lecture, I will offer a session for individual consultations. During these meetings, I can provide personalized guidance to help you initiate your AI projects efficiently, steering clear of outdated methodologies. Join me to uncover the transformative potential of LLMs in advancing your projects.**
